1 Introduction

1.1 Underwriting Philosophy

NMSI, Inc. (“NMSI”) originates loans to borrowers on one- to four-family properties. This section describes the underwriting philosophy and general underwriting guidelines applied to all mortgages during the origination process. NMSI reserves the right to modify these underwriting guidelines.

The soundness of a loan is dependent on the applicant’s ability to repay the debt, verifiable credit history, and the market value of the property. All property values are supported by appraisal reports completed by appraisers that are licensed or certified in the state where the property is located.

All loans are reviewed by authorized underwriters to ensure the loan file documentation complies with Federal and State regulations, and that all loans are approved or denied based on the underwriting standards and guidelines set forth in this Guide.

Each loan is individually underwritten with professional judgment. NMSI’s underwriting objective is to remain uninfluenced until the loan analysis is complete, at which a definite decision is rendered. The applicant’s past and present payment history, employment, assets, liabilities, and property value are all critical factors considered during the underwriting review process. All loans are reviewed for accuracy, credit discrepancies, and misrepresentations during the underwriting process. The loan package must be documented as required for the loan program and must contain sufficient information to render a knowledgeable decision.

1.2 Fair Lending and Fair Credit Reporting Act (FCRA) Notices

It is illegal to discriminate against credit applicants on the basis of race, color, religion, sex, marital status, national origin, ancestry; as well as the conditions, characteristics, or trends in the neighborhood or geographic area surrounding a housing accommodation. NMSI is committed to treating all mortgage applicants in a fair and responsible manner in accordance with all applicable federal, state and local fair lending laws and regulations. We expect our approved originators to be equally diligent in conducting their lending in accordance with all applicable fair lending laws and regulations.

The Fair Credit Reporting Act (FCRA) requires that when an application is denied on the basis of information provided by a consumer reporting agency, the applicant must be given notice identifying the consumer reporting agency and include a statement of the applicant’s rights under FCRA. If the lender has approved the request and NMSI has denied it, the Statement of Denial will be sent directly to the applicant by NMSI.

1.3 Underwriting

All ATR exempt loans must be manually underwritten. NMSI developed a proprietary internal written procedure in determining whether or not a borrower has a reasonable ability to repay their mortgage loan which includes a borrower’s self-prepared acknowledgement of income to be included in the loan package. The maximum LTV limits for all NMSI’s ATR exempt loans are 70% of Fair Market Value (FMV) - (75% LTV by acceptance only with 740 FICO). A Rental Property Analysis report shall be requested at the point of the appraisal review analysis.

1.4 Program Highlights

- Assets must be traditionally documented
- Stated Income program

- Minimum to maximum loan amount of \$75,000 to \$1,500,000

1.5 Maximum Fees

NMSI will not purchase any loan where the total combined Lender Fees and Broker Fees exceed 5.00% of the gross loan amount for loan requests or the maximum allowed under applicable state laws and predatory lending practices. Non-grossed up third-party fees are not included.

7.5 Non-Arm's Length Transactions

A non-arm's length purchase transaction occurs when there is a direct relationship or business affiliation (family, employer, employee, etc.) between the borrower and another party (including but not limited to the seller, real estate broker, loan originator, builder, appraiser, closing agent, etc.).

A non-arm's length purchase transaction is only allowed as a primary residence. Reasonable explanation of the non-arm's length transactions is required if not already included in the file.

Non-arm's length transactions generally carry a higher risk and must be carefully analyzed for concealed credits, cash paid outside of escrow, double escrows, and/or other unacceptable lending

criteria. The down payment must be fully sourced and adequately documented.

7.6 Power of Attorney

A power of attorney is allowed per FNMA guidelines (See FNMA B8-5-06).

Except as otherwise required by applicable law, or unless they are the borrower's relative (or a person who is a fiancé, fiancée, or domestic partner of the borrower), none of the following persons connected to the transaction shall sign the security instrument or note as the attorney-in-fact or agent under a power of attorney:

- The lender
- Any affiliate of the lender
- Any employee of the lender or any other affiliate of the lender
- The loan originator
- The employer of the loan originator
- Any employee of the employer of the loan originator
- The title insurance company providing the title insurance policy or any affiliate of such title insurance company (including, but not limited to, the title agency closing the loan), or any employee of either such title insurance company or any such affiliate
- Any real estate agent that has a financial interest in the transaction or any person affiliated with such real estate agent

Power of Attorney is NOT allowed for Cash-Out Transactions.

8 Occupancy

8.1 Types

Occupancy is determined in accordance with the borrower's intent at the time of loan closing. The following occupancy types are permitted subject to LTV and FICO restrictions:

- Primary Residence
- Second Home

Refer to the applicable program eligibility matrix for the specific guidelines in [Section 2](#).

Shared equity arrangements, where there is both an owner-occupant and an owner non-occupant investor, are not eligible.

8.2 Primary Residence Classification – Buying for Parent or Child

For loan amounts up to \$650,000, NMSI will classify the loan as a primary residence when the subject property is purchased by the borrower for their parent or adult child in the following limited instances:

- Borrower is buying for their parent who is unable to work or does not have sufficient income to qualify
- Borrower is buying for their adult child who is physically handicapped or developmentally disabled, and the child is unable to work or does not have sufficient income to qualify

8.3 Documentation

Occupancy must be consistent with and supported by documentation in the file. When circumstances

arise that raise questions about the borrowers' intent to occupy the property as a primary residence, the originator should confirm occupancy and include the confirmation in the file. Circumstances that raise questions include:

- Borrower is employed a long distance from the intended primary residence
- The size of the proposed residence is inconsistent with the size of the borrower's family and number of dependents
- Borrower already owns a primary residence near the subject property and is intending to retain it (as a rental or second home) rather than sell it
- The proposed primary residence is near the existing primary residence but the new residence is not worth materially more than, or is worth less than, the existing residence
- Borrower is currently purchasing another property, or has done so in the last 12 months
- Borrower is in the business of "flipping" homes

The occupancy indicated on the borrower's signed application is sufficient to document that the borrower intends to occupy the property as a primary residence. Occupancy as primary residence should occur within 60 days of closing

8.4 Occupancy Conversions

When a borrower purchases a new property, this may cause the occupancy of an existing owned property ("departure residence") to change. There are legitimate reasons that lead to an occupancy change for a departure residence, but misrepresentations regarding intent to occupy present elevated risk. Most often, misrepresentation involves the misstated intent to convert a departure residence to a rental and occupy the new property as a primary residence.

Because of the elevated risk, NMSI applies the restrictions described below when a departure residence will be or recently converted to a rental or second home.

For the purpose of this policy, a recent conversion which occurred within the last 60-days must show a signed lease agreement and a bank statement showing the deposit of the security check and/or rental payment(s).

8.5 Pending Sale of Current Residence

If the departure residence is pending sale rather than being converted, then the following requirements must be satisfied:

- The PITIA on the departure residence must be included in the qualifying ratios unless there is either:
 - An executed sales contract with financing contingencies removed
 - An executed buyout agreement as part of an employer relocation plan (the program qualifying for the relocation discount as defined in [Section 9.6](#)) where the employer/ relocation company are responsible for the outstanding mortgages on the property pending sale

9 Purpose

9.1 Purchase

Refer to [Section 7.5](#) for purchase restrictions related to non-arm's length transactions.

9.2 Rate and Term Refinance

To qualify for a rate and term refinance, the following requirements must be satisfied:

- One of the following requirements must be satisfied:

- At least one borrower on the new loan must be on title. If the property is primary residence or second home, the borrower on title must have resided in the subject property for 6 or more months immediately preceding the application date
- At least one borrower on the new loan must have inherited the property or legally awarded the property through divorce, separation, or dissolution of a domestic partnership
- Cash back to the borrower is limited to the lesser of \$2,000 or 2% of the new loan amount. The borrower may not have taken cash-out (similarly defined) within the last 6 months of the new loan closing date (via either a first or subordinate lien).
- The new loan proceeds may only be used for one or more of the following reasons:
 - Paying off the existing first lien
 - Paying off subordinate liens used entirely to purchase the property
 - Paying off non-purchase-money subordinate liens seasoned for at least 12 months prior to the loan application date and for HELOC with total draws during the 12 months preceding the application date not in excess of \$3,000
 - Paying an individual who has been a joint owner for at least 12 months prior to the application date for their interest in the property pursuant to a written agreement such as divorce, separation, dissolution, of domestic partnership, and etc. (12-month requirement does not apply in the case of inheritance)
 - Paying reasonable and customary financing costs/closing costs/prepaid (consistent with the GSE's definition of permissible expenses)
 - Paying off Property Assessed Clean energy (PACE) obligations. A PACE obligation includes any energy retrofit obligation used to finance energy conservation improvements that is repaid through a property tax assessment
- The following requirements of [Section 14.2.3](#) must also be satisfied:
 - The subject property may not currently be listed For Sale, and must have been taken off the market on or before the application date
 - If the subject property was listed For Sale within 6 months prior to the application date, the documentation must include a signed statement from the borrowers indicating their intent to retain the property

9.3 Cash-Out Refinance

Any refinance that does not meet the rate and term refinance requirements will be considered a cash-out for guideline interpretation purposes. The following requirements must also be satisfied:

- The subject property may not have been listed For Sale in the last 6 months prior to the application date, and the documentation must include a signed statement from the borrowers indicating their intent to retain the property.
- The property must have been purchased by the borrower at least six months prior to the loan Note date for new financing except on delayed financing guidelines.

9.4 Delayed Purchase Refinance Loans

Defined as the refinance of a property purchased by the borrower with cash within 6 months of loan application. Transaction is eligible if it meets the following criteria:

- Underwritten as a rate & term refinance
- Primary residence
- Obtain HUD-1 from original purchase
- Document that the purchase funds were from the borrower's own funds, and that there was not any borrowing, gifts or shared funds
- Funds secured by a pledged asset or retirement account are not considered to be from the

borrower's own funds and must be considered a cash out transaction

9.5 Texas Refinance Loans

All refinance loans in Texas will be evaluated against the criteria outlined in our Conventional Underwriting Guidelines. Texas Refinances section to determine if the loan must be originated under the requirements of Section 50(a) (6) of the Texas Constitution. Texas refinance loans that must close under Section 50(a) (6) requirements are not eligible.

9.6 Corporate Relocation

NMSI does not have any special guidelines applicable to borrowers with employer assisted relocations. Standard underwriting guidelines apply.

NMSI may offer a borrower participating in an employer-sponsored corporate relocation program a pricing benefit (refer to the rate card for details) provided all of the following conditions are satisfied:

- The borrower is a new or transferred employee purchasing a primary residence.
- The borrower is participating in a formal program sponsored by the borrower's employer (or agent) evidenced by a copy of the relocation agreement and/or other documentation detailing the nature and amount of the employer's contribution.
- The employer's contribution must be used for closing costs (on property being purchased and/or sold), discount points, below-market bridge-loan financing, ongoing subsidy payments related to cost differences, moving expenses, or other expenses related to the relocation.

Refer to [Section 8.5](#) Pending Sale of Current Residence for additional details on qualifying a borrower participating in an employer-sponsored corporate relocation program.

- Consumer Credit Counseling: Credit must be re-established following completion (similar to above 3 trade lines rule except 24 months and no delinquencies are required)

12.10 Disputed Accounts

- \$0 balance and no derogatory information: no action required
- \$0 balance and derogatory information: remove and provide a credit supplement
- A positive balance and no derogatory information: remove and provide a credit supplement
- A positive balance and derogatory information: remove and pull new credit report

12.11 Credit Inquiries

The borrower needs to address all inquiries to their credit within 120 days of the credit pull date, unless a corresponding new tradeline is evidenced on the credit bureau. In the event any new debt was incurred since the original credit pull date, details of the new obligation must be obtained and the monthly payment must be included in the debt to income ratio. Acceptable documentation would include a recent statement or a credit supplement.

12.12 Fraud Alert Messages on Credit Reports

All fraud alert messages appearing on the credit report must be satisfactorily addressed to ensure that the information presented on the loan application is true and correct. The borrower must be contacted at the phone number provided on the credit report, and the conversation must be documented in the file.

13 Liabilities and Ratios

13.1 General Requirements

The income and debts of the applicants should be utilized to calculate qualifying ratios. Income should be followed as disclosed on the borrower's loan application form. Liabilities should be determined in

accordance with the credit report requirements described in [Section 12](#).

Note: The monthly amount of the paid alimony and/or paid child support (with greater than 10 payments remaining) may not be deducted from the income when calculating the debt ratio.

All debts for which the borrowers are obligated should be included in the debt ratio calculations with the following exceptions:

Installment payments (including child support and alimony) where it has been documented that 10 or fewer payments remain (but lease payments must be included regardless of the number of remaining payments).

Court-Ordered Assignment of Debt: When the borrower has outstanding debt that was assigned to another party by court order (such as under a divorce decree or separation agreement), the debt should not be counted as a recurring debt obligation unless the primary obligor has a history of being delinquent in making payments on the debt. For the purposes of this guideline, a history of being delinquent is defined as any one or more of the following: a) currently 30+ days past-due, or b) one or more 60+ days past-due or two or more 30+ days past-due in the last 12 months.

Borrower has cosigned for a loan: When the borrower has an outstanding debt that was co-signed, the debt should not be counted as a recurring debt obligation if the borrower can document that the primary obligor has been making payments on the debt for at least 12 months and the primary obligor does not have a history of being delinquent as defined above.

Debt payments made by the business may be excluded if it is documented that the business is paying for the debt (for a minimum of the preceding 12 months).

Student loans payments for loans with payment deferment. The payment amount must be determined in the manner described in [Section 13.2](#) for student loans.

A future obligation to make reverse mortgage payments on a property being vacated and retained by the borrower.

13.2 Qualifying Payment Amounts

The following qualifying payments should be utilized unless the Underwriter has determined it is more appropriate to use a higher amount:

Installment Debts: Current payment amount

Lease Payments: Current lease payment amount must be included regardless of the number of remaining payments

Student Loans: For each borrower separately, the monthly payment amount used for calculating the debt ratio must be determined in one or more of the following methods, as applicable:

- Sum the outstanding balances from all student loans (regardless of their payment status) and apply one of the following to calculate a qualifying minimum payment:
 - (1) 0.50% of the total combined balance; or
 - (2) 10% of the individual borrower's qualifying income;OR
- Fully amortized payments (determined at the individual loan level); if the student loan information does not provide sufficient information to calculate a fully amortized payment for a particular loan, then use 0.50% of the individual loan balance

Student Loan Debt Paid by Others: Monthly payments for student loan debt(s) may be excluded when calculating the debt ratio if all the following are met:

- The monthly payment on the student loan debt is paid by:
 - **Someone other than the borrower (“Payer”)**, provided the borrower provides evidence that the student loan debt payer has been making the student loan payments in a timely manner for the most recent 12-months (cancelled checks, etc.);

OR

- **Employer**, provided:
 - Borrower provides evidence that their employer is making the student loan payments on their behalf per an employment contract or other written documentation indicating the amount and duration of the payments approved for the Borrower; and
 - The documentation evidences that the employer student loan debt payments will continue for a minimum of 3 years;

AND

- Student loan payments must be current and have never been 30 or more days delinquent;
- Student loan debt payer or employer may not be an interested party to the transaction; and
- The monthly amount of the payer or employer paid student loan debt may not be included as qualifying income. Only the monthly amount of the student loan debt that is paid by the payer or employer may be deducted from the monthly debt when calculating the debt ratio. If the borrower’s monthly student loan debt is higher than the monthly amount paid by the payer or employer, then the differential or the remaining balance must be included in the borrower’s monthly debt when calculating the debt ratio

Revolving and Open-End Credit: Amount listed on the credit report or 5% of the outstanding balance.

New Mortgage Payment:

- Initial fixed term <= 5 Years: Fully amortizing payment calculated using the greater of the fully indexed rate or the initial note rate plus 2%; including property taxes, insurance (hazard and flood) and HOA dues.
- All Others: Fully amortizing payment calculated using the initial note rate; including property taxes, insurance (hazard and flood) and HOA dues.

Conversion of Property to Rental or Second Home; or pending sale of current primary residence or second home: Refer to [Section 8.4](#).

Bridge Loans: Borrower must still qualify with the included mortgage payments on the current home (PITIA plus Bridge loan payments).

Alimony, Child Support and separate Maintenance:

If the borrower:

- Discloses specific payments for alimony, child support, or separate maintenance in the liabilities section of the application; or
- Discloses in the declaration that “yes” they are obligated to make such payments; or
- Submits tax returns deducting alimony payments; or
- Has provided some documentation that should cause an underwriter to believe alimony, child support, or maintenance obligations may be present,

Then NMSI requires written documentation supporting the payment. Without such disclosure (even if the borrower is separated with dependents or unmarried with dependents), NMSI does not require written documentation. If the borrower declares that the payment is voluntary or that no written agreement exists (perhaps no such agreement has yet been finalized), then no payment needs to be included.

13.3 Debt-To-Income (DTI) Ratios

Maximum DTI ratios are 49.99%.

13.4 Payment Shock

There is no payment shock requirement.

Refer to FNMA Selling Guide for additional requirements

14.2 Property Condition

14.2.1 General Requirements

The appraisal report must identify and describe physical deficiencies that could affect a property's safety, soundness, or structural integrity. If the appraiser has identified any of these deficiencies, the property must be appraised subject to completion of the specific repairs or alterations needed to remedy the deficiency. In these instances, the property condition and quality ratings must reflect the condition and quality of the property based on the hypothetical condition that the repairs or alterations have been completed.

If the appraiser is not qualified to evaluate the alterations or repairs needed, the appraisal must identify and describe the deficiencies and the property must be appraised subject to a satisfactory inspection by a qualified professional.

The appraisal may have to be revised based upon the results of the inspection. If so, the report must indicate the impact, if any, on the final opinion of value. The lender must review the revised appraisal report to ensure that no physical deficiencies or conditions that would affect the safety, soundness, or structural integrity of the property are indicated. A certification of completion is required to ensure that the necessary alterations or repairs have been completed prior to closing.

An "as is" valuation is acceptable providing any existing conditions are minor and do not affect the safety, soundness, or structural integrity of the property: the appraiser's value opinion reflects these conditions.

14.2.2 Natural Disasters

Natural disasters caused by floods, hurricanes, tornados, earthquakes, forest fires, or other catastrophes may impact the property's condition and value. If the disaster occurs prior to the appraisal, the impact, if any, of the disaster must be reflected in the value conclusion. When the disaster occurs following the appraisal but prior to loan closing and issuing of insurance, the lender must take prudent and reasonable actions to determine whether the condition of the property was affected by the disaster and those actions and conclusions must be documented in the file. Lenders must warrant that the property has no damage affecting safety, soundness, structural integrity, or property value. If the property has damage affecting any of these things, the property must be repaired prior to the issuance of the mortgage insurance.

14.2.3 Properties Listed or Previously Listed For Sale

For refinance transactions, properties may not currently be listed For Sale and must have been taken off the market on or before the application date.

- **Rate and term refinance transactions:** If the subject property was listed For Sale within the 6 months prior to the application date, the documentation must include a signed statement from the borrowers indicating their intent to retain the property.
- **Cash-out refinance transactions:** The subject property may not have been listed For Sale in the last 6 months.

- Agency requirements must be met
- There must be an established market for leaseholds in the area and the comparable properties in the appraisal must include at least three leasehold properties
- Increases in the ground rent, if any, must occur according to a pre-determined schedule, in accordance with a cost-of-living or similar index, or in accordance with a reappraisal process with reasonable limitations
- The leasehold term must exceed the term of the mortgage by at least 5 years
- Community Land Trusts (CLTs) satisfying the above criteria are eligible. CLTs are developed by nonprofit organizations or public entities to create and preserve long-term affordable housing. The CLT sells the home, retains ownership of the land, and provides an affordable below-market ground lease to the buyer. Provisions of the ground lease typically guarantee continued use of the property for low and moderate-income borrowers via restrictions affecting resale of the property improvements. Because the buyer is paying a subsidized price, the sales price is not an indicator of market value – therefore the LTV ratio must be determined by dividing the loan amount by the appraised value of the improvements and leasehold interest. The appraisal must be prepared in accordance with applicable GSE requirements.

14.5 Max. Number of Financed Properties

- Primary Residence & Second Home: Unlimited financed properties
- NMSI will finance up to 4 properties with a maximum unpaid principal balance of \$4,000,000.

- One appraisal required for all loans \leq \$2,000,000

14.9 Transferred Appraisals

Transferred Appraisals are NOT allowed.

- The seller must order an appraisal desk review product for each loan from a vendor listed on the Approved Appraisal Desk Review Vendors.
 - CDA report from Clear Capital
 - ARR from ProTeck
 - ARA from Computershare
- A copy of the appraisal desk review report should be submitted in the loan file. The review must not be over 120 days old from the date of the Note.
- If the desk review produces a value in excess of a 10% negative variance to the appraised value, the loan is not eligible for purchase; provided, the seller has the option to then ask the NMSI to order

a Field Review to support the appraised value. If the field review also produces a value in excess of a 10% negative variance to the appraised value, then the loan will remain ineligible for purchase.

- All appraisals are reviewed for eligibility as well as value support. However, the use of an appraisal review product does not relieve the seller of its representations and warranties relating to the property and the appraisal including the underwriting thereof.

14.11 Home Equity Combined Loan-to-Value (HCLTV)

The HCLTV is calculated by adding the first lien amount to the combined total of the junior liens. (adding the outstanding balance of loans, the remaining balance of lines in repayment without ability to make new draws, and the greater of the line amount or outstanding balance for lines of credit that are active where the borrower continues to have the ability to make new draws). When a junior lien is present, payment must be included when calculating the qualifying ratios, and the HCLTV must not exceed program guidelines.

14.12 Value Seasoning

If borrower has less than 12 months ownership in the property, LTV/CLTV is calculated on the lower of the purchase price or appraised value. If the borrower has owned property for more than 12 months, LTV/CLTV is based on the appraised value.

14.13 Loan Amount

The maximum loan amount is contained in the applicable product eligibility matrix.

17.4 Prepayment Penalty

Prepayment penalties are not permitted on any of the Non-QM products.

17.5 Section 32: High-Cost Loans

High-cost loans (Section 32) as defined by applicable state and/or local regulations are not permitted.

17.6 Section 35: Higher Priced Mortgage Loan (HPML)

NMSI will purchase loans that are defined as HPML only if all of the requirements listed below are met along with applicable product guidelines;

- QM Points and Fees audit must pass
- Escrows/Impounds are required for property taxes and homeowner's insurance (including flood insurance)
- All federal and state guidelines are met

Use the FFIEC Rate Spread Calculator to help determine Higher Priced Mortgage Loan (HPML) status: <https://www.ffiec.gov/ratespread/newcalc.aspx>

The calculator requires: Lock-In Date, APR, and the fixed term of the mortgage (in years).

A loan is "higher priced" if:

- It is a first-lien mortgage (other than a jumbo loan) with an Annual Percentage Rate (APR) that exceeds the published Average Prime Offer Rate (APOR) at the time the APR is set (lock date) by ≥ 1.5 percentage points
- It is a first-lien jumbo loan with an APR that exceeds the APOR at the time the APR is set (lock date) by ≥ 2.5 percentage points

Property Flipping with HPML is Ineligible

- Limitations on HPML loans for resale transactions within 180 days
- When a second appraisal is required per the TILA HPML Appraisal Rule the loan is considered on a case by case basis

For principal residences where the price reflected in the buyer's purchase agreement is higher than the amount listed below compared to the seller's acquisition price, a second appraisal will be required.

The amounts are as follows:

- More than a 10% increase if the seller acquired the property in the past 90 days;
- More than a 20% price increase if the seller acquired the property in the past 91 to 180 days
- See the CFPB TILA HPML Appraisal Rule for exemptions from this requirement.

17.7 State Restrictions

Refer to eligible states at <http://www.nmsigroup.com/licensing>

Texas refinance loans that must close under Section 50(a) (6) requirements are not eligible.

17.8 Early Pay Off (EPO's)

Full Premium Recapture upon loan payoff within the first 7 months following the loan funding date.

17.9 Early Payment Default (EPD)

If any of the first four (4) monthly payments due after the loan sale date becomes delinquent NMSI considers this an Early Payment Default (EPD). EPD loans are subject to be repurchased by the Client pursuant to the Mortgage Loan Purchase Agreement

17.10 Legal Documentation

Available Fannie Mae security instruments, notes, riders/addenda, and special purpose documents can be utilized for loan documentation. In the case when Fannie Mae doesn't offer current documentation such as interest only, a document vendor should be utilized for forms.

17.11 Fraud Prevention

All loans are underwritten with fraud prevention and detection as part of the lending decision process. The following fraud prevention requirements are used for all transactions as applicable which include but are not limited to:

- Internal Fraud Prevention Tools (CoreLogic™ or FraudGuard® Reports).
- Ineligible Party List search requirements.
- Verbal Verification of Employment requirements.
- MERS search prior to closing.
- Internal settlement agent and title company approval process.
- Soft-pull credit report in compliance with Fannie Mae's LQI to determine if the borrower may have taken out new credit prior to closing.
- Originators are required to originate loans in compliance with all applicable federal, state, and local laws, rules, and regulations, including the USPAP and the FACT Act.

The Fraud Report is reviewed by the Underwriter at initial approval and again prior to issuing a clear to close if the report is more than 30 days old. All variances noted on the Fraud report must be reviewed and mitigated with comments and supporting documentation, if necessary, before the final clear to close can be issued.

Clearing Variances on Fraud Report: Underwriters must note how they mitigated the Moderate and High Risk Variances on the Fraud report by making notes on the report. Supporting documentation should be included in file before the final clear to close be issued.

FraudGuard® scores above 800 from CoreLogic™ require management review and approval by the Underwriting Manager in order to proceed with the loan.

Underwriters to confirm by reviewing the Fraud Tools, if any of the companies or individuals involved in the origination, underwriting, or servicing of the mortgage transaction are on any of the following lists:

- General Services Administration (GSA) Excluded Party List
- HUD Limited Denial of Participation List (LDP List)
- OFAC List
- Freddie Mac Exclusionary List

Regardless of the reason or the scope for the party being excluded, any party to the transaction included on either list will result in the loan being ineligible for delivery.

17.12 Pre-Funding Audit

NMSI strongly recommends but does not require that lender's implement a pre- funding audit process (such as those prescribed by Fannie Mae and Freddie Mac) to improve loan origination quality.
